

Moss Motors, Ltd. British Sports Car Collection

Triumph TR6

November 1968 marked the beginning of TR6 manufacture, with 91,850 produced through 1976. The large displacement 6 cylinder engine has ensured an enthusiastic following among sports car aficionados.

It is easier to color your TR6 before you cut it out. Felt tip markers or color pencils work great.

Fold 90°

Fold 90°

Fold 90°

Fold 90°

Carefully cut out the car with an X-Acto knife or scissors. Fold down tabs, then fold over front and rear body panels, gluing or taping tabs inside to hold body curvature.

Optional hard top

Fold bumpers in "V" shape to line up with slots in front and rear of body, then fold over ends and fit into slots on side of body.

Tip: Tape completed model to cardboard base.
(Black or dark gray looks good.)

Tip: Make long folds using a ruler for a straight-edge.

Finished top fold detail. Locate in slots in body or, if it's a nice day, leave it off.

Locate windshield in slots on cowl, curving it to make it fit, and stand.
