

Metrolina MG Car Club
Celebrate Transportation in the Air and on the Rails
Saturday, March 25th

We'll depart the Charlotte Metro area at 10:00 from both Mint Hill and Lake Norman locations taking back roads through Mount Pleasant, Gold Hill and on to the Water's Edge Dock and Grill on High Rock Lake. An alternative route would be to take I-85 to the Spencer Exit and follow directions to the

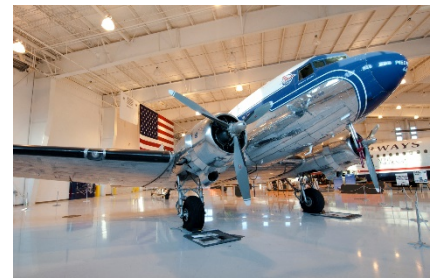

restaurant. This highly rated restaurant on the lake has great food and drinks while sporting a great view of the state's second largest lake. The Water's Edge restaurant is just 5 miles from the North Carolina Transportation Museum where they will be celebrating *Wind & Wings* along with the traditional exhibits and unique railroad equipment.

Join us for high-flying machines, speakers, demos, aviation groups, fun activities, and more!

Event ***Wind & Wing*** Activities Include:

- Wind Tunnel Experiments
- Foam Plate Gliders
- DC-3 Tours
- Wright Stuff Flight Simulators
- Experimental Aircraft Association 1083
- Kate Wright portrayed by Theresa Pierce (Saturday only)
- Cardinal Gibbons High School Robotics
- Novant Med Flight helicopter
- And much more!

All this plus train rides, North America's largest working Round House, numerous working steam engines, diesel locomotives and custom rail cars plus classic cars and boats. Daily admission for Seniors is just \$14 which includes a train and round house ride. **For more information on our route, museum admission and exhibits, contact Dick Lunney (704) 578-4616.**
